

Finance & Analytical Manager

- Sydney Northern Beaches based
- Full-Time role
- Small & agile team environment

About the Company

Designs For Health is a leading Vitamins & Dietary Supplements brand that specializes in offering health solutions to the practitioner channel. Operating in the USA for the last 30 years, the company successfully expanded into the Australian marketplace in 2018, with consistent quarter on quarter growth to date. To cater for our ongoing growth within the Australian market, we're looking for an experienced, enthusiastic and passionate Finance & Analytical Manager with extremely strong financial management experience to join our team based in North Manly.

About the Role

We are looking for a professional Finance Manager to lead the finance function for Designs For Health Australia. This includes, performing the daily and monthly financial management tasks and advanced pricing, profitability and financial analytical services. ***This is a very specialized role and requires several years experience in working in the vitamins and dietary supplements sector.***

Key Responsibilities:

- Draft appropriate Finance Targets and Budget for incorporation in the strategic plan;
- Monthly financial admin: wages, invoices and revenue matching - providing information pack to USA Financial Controller
- Financial modelling: Monthly S&OP including sales and inventory forecasting, monthly financial modelling, 5-year financial modelling
- Pricing and gross margin analysis
- Commission and rebate management
- NetSuite custodian
- General commercial analysis
- Work in collaboration with departments to meet the ever-evolving needs of the business

Ideal candidate:

The ideal candidate must have tertiary education and advanced financial analytical skills developed from experience working in the vitamins and dietary supplements industry.

- Sound financial analytical skills;
- Advanced understanding of the vitamins and dietary supplements industry;
- Advanced pricing and gross margin analytical skills;
- Understanding of the supply chain – from raw materials to manufacturers;
- Advanced understanding of Practitioner and Health Educator commissions;
- Outstanding communication skills and excellent presentation;
- Delegation and time management skills.

The role will full-time.

In return we offer you a supportive environment to do what you do best! Designs for Health values and aims to build an incredible team culture that celebrates success and strives for industry best practice in everything that we do. If you are successful in this role, you will have an opportunity to be part of a great team that fosters work life balance, personal growth and offers flexible work arrangements.

If you are looking for your next career move and think this sounds like you, please email your application to pbarraket@designsforhealth.com.
